REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-23 are allowed due to lack of showing by the prior art of record of a fuel-fired forced draft heating appliance comprising: a chamber; an air intake opening; a heat exchanger; a fuel burner; a draft inducer fan having a motor; a first quantity of combustion air; a substantially unenclosed flow path; and a deflector structure supported within the chamber in an inwardly spaced apart facing relationship with the air intake opening, the deflector structure being operative to be impinged by the first quantity of combustion air and redirect it generally toward the motor through the substantially unenclosed flow path within the chamber. Gatley, Jr. '478 cited by applicant in PTO-1449 shows the closest prior art. However, Gatley, Jr. '478 fails to disclose the deflector structure in the manner as recited in lines 14-18 of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Each of Gatley, Jr. '358, Kim, and Velie is cited to show a furnace with combustion air-cooled draft inducer fan.

Art Unit: 3749
